Re: Ferma Corporation

To Whom It May Concern:

We are pleased to recommend Ferma Corporation for your next demolition project. We have had a positive experience with both their field and office staff. We have found Ferma's performance to be of the highest quality with regard to safety, schedule efficiency, and cooperation with other trades. Further, they have competitive pricing, they are very reasonable in "change order pricing," and they consistently exceed recycling goals on our projects.

Working with Ferma has always been a pleasure and Devcon will continue to work with them in the future. With their innovative approaches to safe demolition practices, commitment to quality and customer service, Ferma Corporation will be an excellent selection for your project.

Sincerely,

Tony Ageno
Devcon Const. Project Sup't.
