Re: Letter of Recommendation
Hitachi

To whom it may concern:

I have had the pleasure of working with Ferma Corporation, Inc. on numerous projects during our firm's nearly 30 year relationship. Projects we have completed recently with Ferma Corporation, Inc. include the Pacific Shores Center project, Hitachi, and the Moffett Towers project. All of these projects were completed and had recycling requirements which Ferma did an excellent job. Over the course of these projects, Ferma Corporation's performance in the management of the project schedule has been exceptional.

With their innovative approaches to building, commitment to quality and expertise, Ferma Corporation will be an excellent selection for your project.

Sincerely,
RUDOLPH AND SLETTEN, INC.

Joseph A. Francini
Senior Vice President / Chief Estimator
